Owners & Operators,

Dear Sir/Madam,

**Notice on the Introduction of Electronic Certificate of
Fire Service Installations and Equipment [F.S. 251]
FSD Circular Letter No. 4/2026**

I refer to FSD Circular Letter No. 4/2026 announced in May 2026. This serves to remind you on the introduction of electronic F.S. 251 certificate. The certificate will be embedded with an anti-counterfeiting QR code at the bottom left corner of the certificate. Members of the public and relevant stakeholders may scan the QR code to verify the certificate information and confirm its authenticity. Starting from 1 July 2026, all other versions of F.S. 251 will be deemed obsolete.

You are reminded that with effect from 1 July 2026, you will be rejected from any application of renewal that is submitted with the obsolete F.S. 251. If you discover any suspicious content after scanning the anti-counterfeiting QR code or receive any certificates issued on or after 1 July 2026 without the anti-counterfeiting QR code, you may make a report to us.

For further details of the subject FSD Circular Letter No. 4/2026, please check the 'Circular Letters / Code of Practice / Notice / Guidance / Checklist' in 'Fire Protection' on the HKFSD's website (https://www.hkfsd.gov.hk/eng/fire_protection/).

Your cooperation is much appreciated. Should you require any amplification of such policy, please do not hesitate to contact our case officers during office hours.

Yours faithfully,

(YUEN Kin-pun)
for Chief Officer (Licensing Authority)
